

REMARKS

Applicants have added new claims 16-34 to more particularly point out and distinctly claim the subject matter that the inventor regards as his invention. The above changes are believed not to add new matter, as support is found in the specification as described above. For example, support for claim 16 is found in paragraphs [0041] through [0049]. Support for claims 17-18 is found in Figure 2 and its associated description. Support for claims 19-39 is found in the discussion of Figure 3. For example, redirection to a null address is discussed in paragraph [0044]. Predefined criteria found in claims 29-34 are discussed in paragraphs [0043] through [0044]. Support for claims 37-39 can be found in paragraph [0042].

Claims 1-34 remain in this application. Additional fees are due because the number of claims added exceeds the number of claims previously paid for. Please see Amendment Transmittal Letter for details.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,
